Dear Students and Parents

Re: GCSE Post Result Services

Reviews of marking for GCSE and Access to Scripts

The results day for GCSE Examinations is **Thursday 24th August 2023**. You will be able to collect results from **9 am until 11 am in the main hall**. The awarding bodies offer a number of services should you have any results queries. The information below outlines services that may be useful to you following your examination results.

If you require access to scrips to decide next steps, the request deadline is **7th September 2023**.

Students who wish to have a script reviewed or returned must pay for this. Prices of the post results services are set by exam boards and vary across the awarding bodies. Please see the accompanying GCSE Post Results form for all the details. **Deadline for these services is 28th September 2023**.

Students should seek advice before applying for a review, by discussing it with teachers as the post results services are expensive. If you decide to have your script reviewed, you can ask for a copy of your script before making a decision, for an additional fee. Some exam boards services are free, but for the remaining there may be an additional fee.

We require a student signed copy of the post results form along with payment before being allowed to process.

It is essential to note that grades for all qualifications may be lowered, in addition to being confirmed or raised. If a grade is raised, then a full refund will be issued.

If making payments in cash, please can this be the correct amount. If paying by cheque, please make payable to Thomas Alleyne Academy.

Certificates

Examinations certificates will be available for collection at the end of November/ beginning of December 2023. More details regarding collection arrangements will be published on the school website nearer the time.

We hope you enjoy your summer break and we are looking forward to seeing you on results day to collect your results.

Yours faithfully
L. O'Sullivan
Examinations Officer
